Global Sourcing Specialists

## YOUR STRATEGIC PARTNER

ATG are global sourcing specialists that partner and work with manufacturers of commodities in China, India and South East Asia. We supply a range of components, assemblies and sub-assemblies to OEMs in a variety of industries including mining and construction, waste recycling, agriculture, transportation, earth moving, marine and material processing.

When an order is placed with ATG every part of the process is taken care of. This includes all manufacturing, international shipping including import and export duties, and then final delivery to anywhere in the world.

We manage all risk to give you the competitive edge.

## Delivering Quality Worldwide

# YOUR STRATEGIC PARTNER

## Finance Your Project

We offer a variety of financial packages to suit your specific requirements that not only aid cash flow but also help with other areas such as tooling charges and haulage. In addition, there's a baffling array of taxes and duties that can be attracted by products sourced from overseas, so we guarantee that these are incorporated into your order.

The finance that we offer is competitive, flexible and has been designed to be of real benefit to our customers. We also fix currency, labour and material of product rates to mitigate any risk and to protect against any fluctuations on international markets.

## Quality Guaranteed

Our international engineering teams work closely with our factories implementing ISO processes to ensure all parts meet the required quality standards. We also continually audit our manufacturing facilities to guarantee that the high standards that are essential to our operation are always maintained.

This involves our native speaking quality control teams rigorously checking every aspect of our production processes to ensure that all components are continually validated, audited and approved throughout their manufacturing cycle.

## Complete Supply Chain Management

As supply chain management experts, we give our customers sustainable business benefits over their competitors.

These competitive advantages include:

- Reduced onsite inventory
- Crucial personnel freed-up
- Improved cash flow
- 'Just-in-time' deliveries

We guarantee intellectual property protection because ATG is also incorporated in Asia. In addition, all of our customers have legal protection to give them complete peace of mind on all orders placed.
