

ATG[®]

Global Sourcing Specialists

WASTE RECYCLING MACHINERY COMPONENTS

ATG are global sourcing specialists that partner and work with manufacturers of commodities in China, India and South East Asia. We supply a range of components, assemblies and sub-assemblies to OEMs in a variety of industries including mining and construction, waste recycling, agriculture, transportation, earth moving, marine and material processing.

When an order is placed with ATG every part of the process is taken care of. This includes all manufacturing, international shipping including import and export duties, and then final delivery to anywhere in the world.

We manage all risk to give you the competitive edge.

WASTE RECYCLING

MACHINERY COMPONENTS

ATG supplies components and assemblies to original equipment manufacturers in the waste recycling industry. The types of machinery that we source parts for includes conveyors, shredders, compactors, shear bailers, sorters and metal sorters.

Whether you are looking for a complete undercarriage for your moving machinery or a set of new drums for your conveyor system ATG can source qualified parts that will meet your specifications.

We are able to manufacture extremely complicated components and assemblies utilising our state of the art equipment and facilities. All parts are continually monitored and inspected through the manufacturing process to ensure they meet our customers' exacting quality requirements and can then be shipped anywhere in the world.

Whatever your needs, ATG has the capacity and flexibility to fulfil any order regardless of its size or complexity.

The parts ATG supply include:

- Castings
- Machined Components
- Conveyor Products
- Fabrications
- Crawler Undercarriage
- Wear Parts
